**FOR IMMEDIATE RELEASE:**

SLIMCD, INC Announces Free Credit Card App for Android

***The Free SlimCD for Android App Supports Encrypted Card Swipe and Keyed Transactions***

**Coral Springs, FL Feb 7, 2012** – SLIM CD, Inc a software developer and service provider announces the availability of SlimCD for Android, its new application for Android devices. The SlimCD for Android is available at no charge to existing SLIM CD customers and can be downloaded immediately from the Android Marketplace.

“This new product allows our customers to process card-present transactions using Android devices and our optional encrypting card reader”, said Sami Slim, President and CEO of SLIM CD, Inc. He continued, “One of the most effective tools in our new app is the at-your-fingertips reporting for business owners. Our built-in sales reporting solution goes beyond card acceptance so that any business owner can use our device to monitor sales even when they are not in the store.”

Frank Haggar, Director of Product Development for SLIM CD, Inc. explained “Our SlimCD for Android product follows our initial mobile website and iPhone app with this Android application. Any SLIM CD customer can benefit from the ability to accept transactions and get reports anytime, anywhere. In addition to our mobile website for any phone, SLIM CD now offers native app support for Android, iPhone, iPad, or iPod device with or without the card reader.”

The SLIM CD includes a desktop application, data on demand, built-in gateway services, fraud detection services, a shopping cart, a mobile website, and now the new SlimCD for iPhone application. The SLIM CD runs on any personal computer with internet connectivity. The SlimCD for Android runs on most Android devices. The SlimCD for iPhone runs on any Apple iPhone, iPad or iPod device.
